

The Gaiera Giovanni Tannery produces a wide range of items using raw material from lambskin, kidskin, and calfskin of the best sources and fully selected from our expert suppliers.

The priority and specialty of our Tannery is to create prestigious items of fine quality in which the workmanship enhances the natural characteristics of the leather. The collaboration between internal staff and the best designers leads to the study and development of products, manufacturing processes and refinements that are particularly mindful to the dictates of fashion and trends. Close monitoring and supervision of all stages of processing by experts and a strict selection in various positions ensure that the finished product meets the highest standards and satisfies customer needs.

We offer customers wishing to create exclusive items our full cooperation in the study and development of the product they desire.

Over the last several years our catalogue has been unanimously considered to be a reference point for the season's trends. It is developed after thorough research and analysis of fashion trends and in collaboration with the most talented designers of the moment.

We introduce our new items developed for each coming season at the most important trade fairs in Italy and worldwide.
